A MESSAGE FROM THE DIRECTOR

Leadership is built on trust, commitment and responsibility.

ABHIMANNU KUMAR

DIRECTOR

EDUSTORE UNIFORMS

Dear School Leaders,

Welcome to EduStore Uniforms. Thank you for taking the time to explore our Company Profile. It is a privilege to introduce a brand that has been built with a clear purpose—to help educational institutions simplify school uniform management through professionalism, quality, and dependable service.

Over the past 20+ years, my professional journey in the educational sector has given me the opportunity to closely work with school managements, principals, administrators, and institutional leaders across different regions of India. These experiences have helped me understand that a school uniform is much more than a dress. It reflects an institution's culture, discipline, identity, and values. Every student who wears a school uniform becomes an ambassador of that institution.

At the same time, I have also witnessed the operational challenges schools face while managing their uniform programs. Selecting the right fabric, ensuring consistent quality, managing sizes, coordinating production, meeting academic timelines, handling parent expectations, and maintaining continuity require careful planning and responsible execution. These responsibilities demand more than a supplier—they require a partner who understands the complete journey.

This understanding became the inspiration behind **EduStore Uniforms**.

Our vision is simple yet meaningful—to become a trusted School Uniform Solutions Partner for educational institutions across India. Rather than merely supplying uniforms, we believe in working alongside schools to create structured, transparent, and professionally managed uniform programs that deliver long-term value.

One principle guides everything we do:

“We act as consultants, not salespeople.”

Before recommending any product, our team first understands the institution's objectives, student requirements, climate conditions, quality expectations, budget, and timelines. Only then do we recommend solutions that are practical, sustainable, and aligned with the school's vision.

Our responsibility extends far beyond manufacturing and delivery. Every project is supported through consultation, planning, sample development, production monitoring, quality assurance, logistics coordination, and after-sales support. We believe that every successful delivery is not the end of a project—it is the beginning of a long-term relationship.

On behalf of the entire **EduStore Uniforms team**, I sincerely thank you for considering us as your School Uniform Solutions Partner. We look forward to serving your esteemed institution and building a relationship founded on trust, integrity, and mutual growth.

Together, let us create a uniform program that truly reflects the excellence of your institution.

Warm Regards,

Abhimannu Kumar
Director
EduStore Uniforms

“

Our success is not measured by the number of uniforms we deliver, but by the confidence and trust that educational institutions place in us year after year.

ABOUT EDUSTORE UNIFORMS

*Building Long-Term Partnerships
Through Professional Uniform Solutions*

More Than a Supplier. A Reliable Institutional Partner.

At EduStore Uniforms, we believe that a school uniform is more than just apparel—it reflects an institution's identity, discipline, and values. Every stitch, every fabric, and every design represents the image that a school creates for its students and community.

Backed by **20+ years** of institutional sales and educational industry experience, EduStore Uniforms was established with a clear purpose: to simplify school uniform management through professional consultation, structured execution, and dependable service.

Unlike conventional suppliers, we follow a **consultative approach**. We begin by understanding each institution's requirements before recommending fabrics, designs, and product solutions. This ensures that every recommendation aligns with the school's expectations, budget, and long-term vision.

From consultation and product planning to manufacturing, quality assurance, timely delivery, and after-sales support, we manage the **complete uniform lifecycle** with professionalism and accountability.
